GIVE DR. WIDTSON FREE HAND TO FIND RIGHT SOLUTION FOR L.P. PROBLEM

Edmonton, Feb. 10.—Fresh from his duties on the United States Immigration commission, appointed by President Coolidge to investigate the "human equation" angle in U.S. immigration projects, Dr. Wilton, prominent agriculturist and economic expert, former head of Utah State university, and a member of the Immigration Commission, reached Edmonton today, to take up his duties of investigation into immigration schemes in Southern Alberta.

Give Him Free Hand  
He will be given an absolutely free hand, states Premier Greenfield. The government wants to know how immigration in this province stands; it wants to know if irrigation settlers can make a living under existing conditions, and if not, what are the changes required to make them do so; it wants, in fact, a complete survey of the entire irrigation problem from the irrigationist's angle, so that its future policy may be outlined with respect to the irrigation projects whose bonds the government has guaranteed.

Meets the Premier  
Dr. Wilton spent a half hour in session with Premier Greenfield today, when the scope of the enquiry was outlined to him along the lines already indicated. He will be in the city for a few days, examining all records relative to southern irrigation projects, on file with the provincial government.

Then, in company with G. R. Marshall, of Lethbridge, he will go to Lethbridge for further details and for discussion with irrigation men there, and the Premier will proceed to the pursuit of his enquiries in the field, meeting the farmers, and looking into the whole situation right on the spot.

Premier Greenfield stated that the action of the government would be indicated following Dr. Wilton's report.

NEW TYPE AIRSHIP TO FLY ATLANTIC  
Dearborn, Mich., Feb. 10.—A new type of rigid metal dirigible is to be flown from the United States government at a local airport, according to reports from the Atlantic Development corporation. Officials of the corporation stated that this is the first time in a plan to establish a three-day passenger service between the United States and Japan.

The metal ship will have a "skin" of aluminum, which is stronger than steel, though eight or ten thousandths of an inch thick, will be six times stronger than steel of the same weight. It will be both fire and crash resistant. It is claimed that the ship will be durable and permanent in structure beyond anything heretofore attempted. It will be 150 feet long and 53 feet in diameter.

ELVEN MEN OF JAPANESE CRUISE  
Vancouver, Feb. 9.—Eleven men of the crew of the Japanese cruiser Idzumi, in port here with the visiting training ship, the Japanese cruiser, met death just after midnight Saturday in the waters of Burrard Inlet, when the naval launch in which they were returning to the shore was struck by a transfer barge.

Jack and Jill went up the hill to buy some booting liquor. Jack went blind and Jill went to prison. Jack and Jill was even sicker.

THREE MORE HOME BANKERS ARE GIVEN JAIL SENTENCES

Toronto, Feb. 10.—"I suppose the three more home bankers who have been sentenced to jail today, beyond that I concluded to do as I did in the other cases, pronouncing the sentence," remarked Judge Gosselin, when he took the bench today to pass sentences upon the convicted defaulters of the Home Bank.

D. L. McCarthy, K.C., crown prosecutor, moved at once for sentence upon Richard P. Gough, former vice-president of the bank.

Mr. Gough made a personal plea for clemency. Judge Gosselin listened intently to Gough's pleading, and at its conclusion remarked: "I never was so troubled since I have been on the bench as I am this morning although it is perhaps kindness that I should say nothing further." He then sentenced the prisoner to one year in jail and one year one day imprisonment, at the Ontario reformatory at Guelph.

There was scarcely a murmur throughout the crowded court as sentence was pronounced. Mr. Stewart also addressed the court asking for clemency.

Judge Gosselin replied that he had done so, and that the sentence he had imposed was four months determinate imprisonment, at the Ontario reformatory, at Guelph.

Mr. McCarthy then moved that the case of the third defendant, James H. Wilson, be dealt with last. He said that in the witness box there was nothing he desired to add to what he had already said.

The judge, as in the other cases, refused to be prompted by remarks and he promptly sentenced Wilson to six months determinate imprisonment, at the Ontario reformatory, at Guelph.

THE CABINET OF BRITAIN PLAYS IMPERIAL POLICY  
London, Feb. 6.—The British cabinet is divided on the issue whether the demands of France for security and the objections of the dominions to becoming involved in European affairs are going to be the controlling factors in the British foreign policy in future.

Jack and Jill went up the hill to buy some booting liquor. Jack went blind and Jill went to prison. Jack and Jill was even sicker.

**you become disabled  
what about your  
Life Insurance?**

"I HAVE always hesitated about increasing my life insurance because of the responsibility I would have to assume for the premiums," said a man typifies a considerable class. "I always pictured myself in some situation, perhaps disabled through an accident, where I might be unable to pay the premiums."

But you may now insure against this possibility of future inability to pay your premiums. For a small additional charge the Mutual Life of Canada will issue your policy subject to a clause which provides that in case of total and permanent disability the Company will waive future premiums.

That is not all. Upon approval of proofs of disability, the Company will not only waive future premiums, but will pay \$10 a month per \$1,000 of assurance, so long as total disability continues.

And further, if the policyholder should die by accident the Company will pay double the amount of life insurance named in the policy. These new clauses are optional in all old and new Mutual policies if assured be over 15 or under 55 years of age.
